# Chairman's Message

**Shri. Santosh Rungta**  
Chairman, Rungta Educational Foundation

College life is a journey where academics, friendships, and self-discovery come together to shape your future. Here at our institution, we believe that balancing studies and student life is not a struggle, but a beautiful craft you master with time. Every friendship you forge, every challenge you overcome, and every dream you dare to chase will leave an everlasting impact.

True success lies not only in academic achievements but also in building character, resilience, and emotional intelligence. Through our vibrant campus events, clubs, and mentorship programs, we strive to create an environment where you are prepared for life beyond the classroom — ready to embrace opportunities, challenges, and a future full of promise.

I extend my heartfelt appreciation to the College Beacon team for capturing the vibrant spirit of our institution so brilliantly. This magazine is not just a collection of pages, it is a celebration of dreams, creativity, and dedication. Your efforts have turned memories into milestones.

As you turn these pages, remember — this is not just a story of your college years; it is the beginning of everything you are destined to become. Dream big, stay grounded, and keep moving forward.

# Tribute in Action

## Honouring the visionary, Late Shri GD Rungta Sir

22nd February, Foundation Day marked a historic milestone as the Rungta family and campus community came together to celebrate the birth centenary of Late Ghanshyam Das Ji Rungta, the visionary whose entrepreneurial spirit and philanthropic heart laid the foundation for a legacy that continues to thrive.

This year's Rungta Foundation Day was not just a tribute, but a vibrant celebration of his values—service, sustainability, innovation, and unity.

The day began with a massive blood donation drive, reflecting his lifelong commitment to public welfare. Hundreds of students, faculty members, and staff stepped forward to donate blood, making it one of the most successful donation drives in the region. The spirit of giving, so central to Late Rungta's philosophy, was alive in every donor.

Following this, a tree plantation campaign was launched across the campus to promote sustainability and honor his love for nature. Green saplings, symbolic of growth and hope, were planted by students, faculty, and guests, leaving a mark that will grow for years to come—just like his vision.

In a historic achievement, the institution set a world record in patents, with students and faculty filing an unprecedented number of patents in a single day. This groundbreaking moment showcased Rungta's ongoing legacy of innovation and excellence in education.

Through these diverse activities, Rungta Foundation Day not only celebrated the life of a legendary leader but also served as a reminder of the values he stood for. The centenary celebration was a perfect blend of legacy and action, a day that connected the past with the future—and above all, a tribute worthy of the man who started it all.

# Tribute in Action

## TREE PLANTATION DRIVE

Rungta College is set to launch a significant environmental initiative by planting 100 trees on its campus. This tree plantation drive aims to enhance the campus's green cover and promote ecological awareness among students and staff. The college plans to involve students actively in the planting and nurturing of these trees, fostering a sense of responsibility towards environmental

## BLOOD DONATION CAMP

A remarkable blood donation drive was organized to commemorate the birth centenary of Late Ghanshyam Das ji Rungta, showcasing a spirit of generosity and community service. The event saw enthusiastic participation from faculty members, students, and even the chairman, collectively donating 110 units of blood in just 3 hours. This impressive feat highlights the willingness of individuals to contribute to a noble cause. Blood donation is a vital process that helps save countless lives, with each unit donated capable of saving up to three lives. By participating in such drives, individuals can make a significant difference in their community, promoting a culture of voluntary blood donation and helping ensure a steady supply of blood for those in need.

## BEACON RELEASE

On the centenary of Late Shri Ghanshyam Das Ji Rungta, the release of Beacon, the official college magazine, served as a heartfelt tribute to his visionary legacy. The special edition captured the vibrant spirit of the institution, highlighting student achievements, creativity, and milestones. The occasion brought together faculty, students, and dignitaries in a moment of reflection and celebration, honoring the values of education, integrity, and service that Late Shri Ghanshyam Das Ji Rungta stood for and that continue to guide RGI today.

# Tribute in Action

## Golden Book of World Records

### Rungta College Sets World Record with 207 Patents in 12 Hours

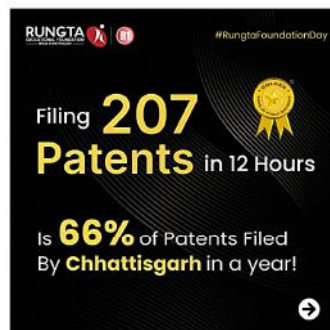

On the momentous occasion of G.D. Rungta Foundation Day, Rungta College of Engineering and Technology achieved a groundbreaking feat by filing 207 patent applications within just 12 hours, setting a world record and reinforcing its unwavering commitment to innovation, research, and intellectual growth.

This milestone exemplifies the institution's dedication to fostering a robust ecosystem of entrepreneurship, problem-solving, and intellectual property development. Under the guidance of mentors and experts, students and faculty across diverse disciplines collaborated to transform their innovative ideas into patentable solutions—addressing challenges in technology, healthcare, agriculture, sustainability, and more.

What makes this initiative historic:

- 2.96% of India's average monthly patent filings were achieved in a single day by Rungta College.
- The patents filed represent around 66% of Chhattisgarh's annual patent output.
- It marks the first-ever instance in India of 200+ patents being filed by a single institution in one day.

Shri Santosh Rungta, Chairman of the Rungta Educational Foundation, shared his thoughts: "This achievement marks a significant step in our journey towards becoming a hub of innovation and applied research. It reflects the collective dedication of our students, faculty, and research mentors." This historic day not only brought global recognition to the institution but also lit the spark of innovation in hundreds of minds, encouraging the next generation of thinkers, inventors, and change-makers. With this remarkable success, Rungta College proudly leads by example—transforming ideas into meaningful impact for the nation and beyond.

# GOLDEN BOOK OF WORLD RECORDS

## Certificate of Excellence

### **MOST UTILITY PATENT APPLICATIONS FILED IN 12 HOURS**

The World Record "most utility patent applications filed in 12 hours" has been jointly achieved by **Rungta International Skills University** and **Rungta Group of Institutions** from **Bhilai, Chhattisgarh, India**.

On Feb 22, 2025; institutions have filed **Two Hundred Seven (207)** utility patent applications within twelve hours.

**Golden Book of World Records**

# Celebrations

On the momentous occasion of our Chairman Santosh Rungta sir's 75th birthday, the campus radiated joy, gratitude, and admiration. More than just a birthday, it was a celebration of a remarkable life dedicated to education, leadership, and excellence.

The day began with a warm welcome as faculty, students, alumni, and staff gathered to honor the man behind our institution's growth. A vibrant cultural lineup—soulful music, energetic dances, and heartfelt skits—paid tribute to his inspiring journey. Students and faculty presented handmade cards, framed memories, paintings, and curated gifts, each reflecting personal gratitude and admiration. The atmosphere was filled with applause and heartfelt stories as speakers shared fond memories.

In his address, he expressed heartfelt thanks and encouraged students to stay focused on their goals with dedication and purpose. It was a day of celebration, emotion, and deep respect—not just for a leader, but for a legacy that continues to inspire us all.

The 75th birthday celebration of our respected Chairman, Shri Santosh Rungta Ji, was profoundly graced by the esteemed presence of Smt. Shakuntala Devi Rungta Ji, adding warmth and significance to the occasion

# Celebrations

## Celebrating Dr. Sourabh sir's Birthday

**Dr. Sourabh Rungta**  
Rungta Educational Foundation  
(Vice Chairman)

Warmest Wishes To Our Respected Vice Chairman, Dr. Sourabh Rungta, On His Special Day! Your Visionary Leadership And Relentless Dedication Have Been A Guiding Light For The Entire Rungta Educational Foundation.

Under Your Dynamic Guidance, The Institution Continues To Reach New Heights, Inspiring Students And Faculty Alike.

On This Joyous Occasion, We Extend Our Heartfelt Gratitude For Your Continued Efforts Toward Excellence In Education And Empowerment. May This Birthday Bring You Immense Happiness, Good Health, And Continued Success. Here's To Another Year Of Impactful Leadership And Remarkable Achievements. Have A Wonderful Celebration, Sir!

# Celebrations

Warm wishes to CA Sonal Rungta, a visionary leader and guiding force behind RGI's growth and excellence. As General Secretary of the Rungta Educational Foundation and Director of Finance & Administration, his dedication continues to inspire students and educators alike.

A Chartered Accountant and management graduate, his strategic foresight has helped RGI emerge as a centre of academic innovation and student-centric learning. His role in ensuring quality, transparency, and continuous improvement reflects his unwavering commitment to education.

May this year bring him continued success, good health, and happiness

His leadership not only drives progress but also nurtures a culture of integrity and aspiration. We are grateful for his relentless pursuit of excellence that shapes the future of RGI every day..

**CA Sonal Rungta**  
General Secretary  
Rungta Educational Foundation

**Celebrating Sonal sir's  
Birthday**

# Standing With Nation

## A Dark Day of Loss and Courage

We are deeply saddened by the tragic loss of innocent lives in the horrific attack in Pahalgam, Kashmir. Our hearts go out to the victims and their families during this unimaginably painful time. May peace prevail, and may those affected find strength and healing in the days to come. Let us stand united against violence and remember the lives lost with solemn respect.

As members of the Rungta family, we observed a heartfelt minute of silence to pay tribute to the departed souls. This quiet moment of reflection was a symbol of our solidarity with the victims and a reminder of the urgent need for peace and humanity in a world torn by violence.

भावपूर्ण श्रद्धांजलि

Let this moment strengthen our resolve to build a kinder, safer future—one where compassion triumphs over cruelty, and unity silences hate

## MEMOIRS BY OUR MENTOR

### Balancing Fun, Future, and Friendship:

It brings me great joy to write for this edition of Beacon on a theme that truly captures the heart of college life – Balancing Fun, Future, and Friendship. These three words are more than just a phrase. They show what college is really about – learning, enjoying, and growing together.

One of the biggest challenges students face is how to enjoy college while staying focused on their future goals. But it's not impossible. The secret is to have a clear purpose and good time management. You don't have to choose between studies and fun. In fact, both can go hand in hand. Set your goals, keep track of your progress, and make time for fun activities like college fests, sports, clubs, and spending time with friends.

From what I've seen, the students who do well are those who know when to study hard and when to relax. They don't lose focus on their goals, but they also don't miss out on college memories. Academics help shape your future, but fun and friendships are what make the journey enjoyable and unforgettable.

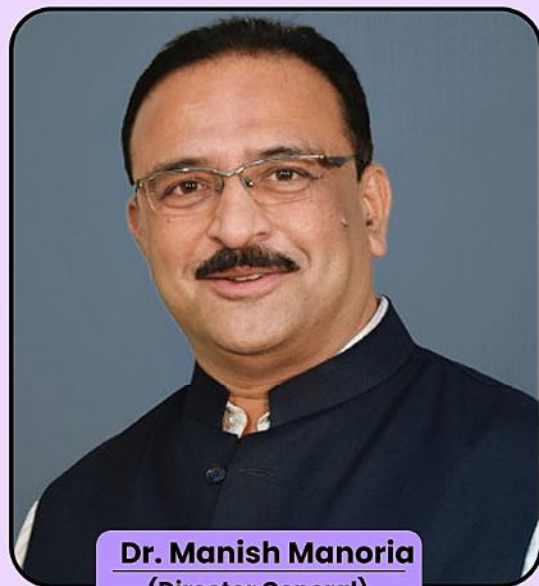

Thinking about my own college days, I remember being deeply focused on academics. I was always among the top three rankers at the university. I worked hard, studied with discipline, and stayed committed to my goals. I also took part in club events and made some good friends.

However, since I was a day scholar, I missed out on hostel life. Looking back, I feel I missed a special part of college—the close friendships and bonds that hostel students build. Many of my hostel friends still share a strong brotherhood. I admire the deep connections they formed, which feel like family ties even today.

If I could go back in time, I would still stay focused on studies, but I would also try to open up more, enjoy more moments with friends, and create deeper connections. College is not just about getting a degree—it's about learning from life, from friends, and from every experience outside the classroom.

To all students reading this: Work hard for your goals and give your best to your studies. But don't forget to enjoy the journey. The marks and jobs will come, but the memories, laughter, and friendships are once-in-a-lifetime treasures. Cherish every moment—whether it's a late-night chat, a group project, a college fest, or even a small walk with friends.

One memory I will always hold close happened during my time as an Assistant Professor and Hostel Warden at SATI Vidisha—my own college. We were preparing for the Golden Jubilee Celebrations and wanted to create something special for returning alumni.

**Dr. Manish Manoria**  
(Director General)  
Rungta Educational Foundation

One evening in the hostel, I talked with some students—Vishal Soni, Yeshuraj Neekhara, Ankur, and others—about my college memories. They saw a camcorder I had bought through a research grant and got curious about my student life. This led to a beautiful idea. They worked hard and created a documentary called SATI Yaadein that shared college memories through stories and visuals.

When we played the film in front of more than 1500 people, including over 500 alumni, the whole hall went silent at the end. Then came loud claps, teary eyes, and full hearts. That moment of unity and emotion still touches me deeply. Even now, I sometimes watch SATI Yaadein on YouTube and relive those beautiful memories.

So, to every student—live your college life fully. Build your future, yes—but also enjoy your present. Make friends, laugh often, help each other, and create stories you'll remember forever. These years will shape your life—make them count.

# ACADEMICS

As the Dean Academic, I'm pleased to share our recent initiative focused on empowering education through improved teaching practices. We organized a guest lecture session on effective blackboard teaching, covering how to plan and structure lectures, use the board efficiently, and engage students meaningfully.

**Dr. Chinmay Chandrakar**  
Dean Academics ,RCET

Faculty members were then invited to deliver live presentations in front of the Director General, Director Academic, and myself. This provided them with direct feedback from senior leadership on classroom management, content coverage, and student interaction. We also recognized the "Best Teacher" based on clarity, delivery, and engagement. To reinforce the learnings, a Faculty Development Program (FDP) followed, focusing on pedagogy, lecture preparation, and innovative teaching techniques. This initiative greatly benefited new faculty by offering practical exposure and mentorship. It has fostered a culture of continuous improvement and strengthened the connection between faculty and academic leadership, ultimately enhancing the overall teaching-learning environment.

We recently organized a special program named \*IGNITE\*, aimed at recognizing and motivating faculty excellence. During this event, certificates were awarded to faculty members whose students achieved more than 90% results in the end-semester university examinations. This initiative serves as a powerful motivation for faculty to continuously strive for teaching excellence and produce strong academic outcomes. By acknowledging their hard work and dedication, we aim to create a culture of performance-driven teaching. IGNITE not only celebrates success but also inspires other faculty members to enhance their teaching methods and contribute to the overall academic growth of the institution.

# WORKSHOPS AT A GLANCE

## GUEST LECTURES

# GLOBAL VOICES

**Sitasma Karki**  
BTECH | RCET

College life is a beautiful blend of laughter, learning, and lasting bonds. As students, we juggle between chasing our dreams, enjoying unforgettable moments, and building friendships that often last a lifetime. Our days are filled with lectures and late-night study sessions, but also with spontaneous laughter in the canteen and memories made during fests and group projects. Balancing fun, future, and friendship is what makes college truly special — it's where we grow not just academically, but personally. These years are not just a stepping stone to our careers, but a time to discover ourselves and the people who make the journey worthwhile.

From a humble beginning in Mapel, South Sudan, to becoming a confident, culturally enriched graduate, my journey at Rungta College has been nothing short of transformative. More than academics, Rungta gifted me friendships across continents, mentors who shaped my thinking, and life experiences that turned me from a novice to an international chef—both in kitchen skills and in navigating global perspectives. From late-night hostel talks and vibrant cultural festivals to inspiring moments of public speaking, every step here taught me resilience, unity, and self-belief. Rungta wasn't just a college; it was a home that stirred my dreams, seasoned my identity, and served me purpose on every plate and pat

**Jeremiah Kuic Goi Akol** | MBA | GDRCS

**Emanuel Anthony** |  
PHARMACY | RCPSR

College events and clubs are essential for student growth, offering opportunities to develop skills like time management, communication, and responsibility. Participating in these activities allows students to take initiative, collaborate with peers, and sometimes lead projects, fostering personal growth. These experiences help students build valuable life skills that extend beyond academics.

Events such as cultural festivals, college fairs, and sports tournaments offer a perfect balance of fun and learning. Cultural events promote exploration and creativity, while teaching planning and teamwork. Sports activities help develop discipline and time management, along with encouraging social connections. These events allow students to enjoy themselves while gaining practical skills.

To support shy or introverted students, faculty can encourage participation by personally inviting them or pairing them with a buddy. Offering behind-the-scenes roles or creative tasks can also make it easier for them to join in. Such efforts ensure every student has a chance to grow through college events.

# From The Dean's Desk : Fun And Learning

**Dr.Lakhwinder Kaur**  
**Dean Student Section(RCET)**

In The Ever-Involving Landscape Of Education, Academic Excellence Remains A Cornerstone- But It Is No Longer The Sole Indicator Of A Student's Success. Dr. Lakhwinder Kaur, The Dean Of Rungta College Of Engineering And Technology Strongly Advocates For The Vital Role That Extracurricular Activities Play In Shaping Well-Rounded Individuals. According To The Dean, Engaging In Activities Beyond The Classroom Is Not Just A Pastime – It's A Pathway To Personal And Professional Growth.

"Extracurricular Involvement Helps Students Uncover New Talents And Passions That May Never Surface In A Traditional Academic Setting", Says Dr. Lakhwinder Kaur. These Activities, Whether In The Sports, The Arts, Or Clubs And Organizations, Empower Students To Step Outside Their Comfort Zones And Develop Confidence. Participation In These Domains Fosters Self-Esteem And Helps Students Become More Expansive, Independent, And Assured In Their Identities.

More Than Just Boosting Confidence, Extracurricular Activities Are Instrumental In Enhancing Teamwork And Communication Skills. Students Learn To Collaborate With Others, Take On Leadership Roles, And Navigate Group Dynamics- All Of Which Are Crucial In Their Future Careers And Personal Lives. Dr. Lakhwinder Kaur Points Out That Such Soft Skills Are Often What Set Candidates Apart In Professional Environments.

Interestingly, Involvement In Extracurriculars May Also Positively Impact Academic Performance. Research Suggests That Students Who Participate In These Activities Tend To Exhibit Better Grades, Improved Attendance, And Greater Overall Well-Being. This, The Dean Believes, Is Because Active Students Often Develop Strong Discipline And Time Management Skills By Balancing Their Academic Responsibilities With Other Commitments.

Beyond Academics And Skill-Building, Extracurricular Activities Serve As A Powerful Tool For Socialization. They Provide Opportunities For Students To Form Meaningful Friendships, Establish Networks, And Foster Connections That Could Benefit Them Long After Graduation. In A World Increasingly Driven By Relationships And Collaboration, These Networks Can Be Invaluable.

Perhaps One Of The Most Underrated Benefits Is The Cultivation Of Time Management And Prioritization Skills. Juggling Lectures, Assignments, And Extracurricular Pursuits Requires Students To Organize Their Schedules Effectively. This Helps Build A Foundation Of Responsibility And Self-Regulation That Proves Useful Throughout Life.

In Summary, Dr. Lakhwinder Kaur Emphasizes That The Educational Journey Is Not Confined To Textbooks And Lectures. Participation In Extracurricular Activities Significantly Enriches The Student Experience, Enhancing Personal Development And Preparing Young Minds For The Challenges Of The Real World. As The Dean Aptly Puts It, "These Experiences Help Students Grow –Not Just As Scholars, But As Individuals Ready To Take On Life."

**MEMOIRS BY OUR HODs**

**Sanjay G Sakharwade**  
HOD(Mechanical Department)

College life is a unique blend of new experiences, friendships, and learning. As students enter their first and second semesters, everything feels fresh and unfamiliar. But soon, bonds begin to form—we make friends from different states, regions, and linguistic backgrounds. Together, we study, grow, and support one another throughout the journey. Preparing for exams becomes a shared experience. From late-night study sessions to revising backlogs just a day or two before exams, the sense of teamwork is strong. Previous years' question papers often come to the rescue, helping students understand patterns and focus their preparation. Most importantly, from an engineering perspective, mastering diagrams—often referred to as the language of engineering—can significantly boost exam scores and conceptual clarity. As students progress through all eight semesters, the ultimate goal remains clear: securing a placement with a rewarding salary, especially for students from core branches. Along with theoretical knowledge, practical classes play a crucial role in shaping a student's technical competence and real-world understanding. Amidst the academic rigor, the campus remains lively and vibrant with cultural celebrations. Annual fests like VYOM and Garba Night offer students a platform to showcase their talents, celebrate diverse cultures, and simply enjoy moments of joy and togetherness. Whether it's participating in large events or celebrating small moments like birthdays, these experiences contribute to the holistic development of every student. At RCET, we believe in nurturing not just engineers, but confident, well-rounded individuals prepared to take on the world.

College is undeniably one of the most cherished and transformative phases in a student's life. Long after graduation, people often find themselves fondly reminiscing about the friendships, lessons, and experiences that shaped them during these formative years. According to the Head of the Mechanical Engineering Department, college is much more than lectures and exams — it's a launchpad for self-discovery, personal growth, and lasting memories.

He encourages students to go beyond the classroom — to explore their talents, participate in extracurricular activities, and build meaningful connections. "The four years you spend in college," he says, "are not just a phase; they are the foundation for the next forty." These years hold the potential to influence not just careers, but character.

Unlike school, where hand-holding is common, college instills independence, responsibility, and direction. It teaches students to take charge of their goals, to learn from their failures, and to grow with every experience. The knowledge, confidence, and life skills gained during this time are invaluable assets that last a lifetime.

His message to students is clear: make the most of your time here. Study sincerely, but also immerse yourself in events, competitions, and collaborative activities. Embrace every opportunity that helps you grow — academically, personally, and professionally. A well-rounded student, he believes, is one who's not only ready for the job market, but also for life.

**Jayant Supe**  
HOD (Civil Department)

# DAY SCHOLAR LIFE

VS

# HOSTEL LIFE

## DAY SCHOLAR

Vs

## HOSTELLER

### Day Scholar vs Hosteller Life: Two worlds, one Journey

College life is a beautiful blend of chaos, laughter, growth and the occasional all-nighter. But while the destination- a degree and a bunch of unforgettable memories- is the same for all, the journey differs greatly depending on where you stay: at home as a day scholar or on campus as a hosteller.

#### The Day Scholar Life: Familiar Comforts

Nothing beats the comfort of waking up in your own bed, having your favorite breakfast, and being around family. Emotional support is always just a room away. Avoiding hostel fees and mess charges makes this a more economical option. With parents around, routines tend to be more structured, which can help students stay grounded and focused.

Whereas there are some cons too for the day scholar. Long travel hours, traffic jams, and unpredictable transport can drain time and energy. Day scholars often miss out on late-night events, impromptu group studies, or bonding sessions that defines hostel life. Living Under parental supervision can sometimes limit the opportunity to learn basic life skills like time management, budgeting or self-care.

#### The Hostel Life: The World of its Own

Hostel life is a crash course in adulting. Students learn to manage finances, time, laundry- and sometimes, even emotions. Be it midnight birthday celebrations, 2 AM tea breaks or last-minute group projects, hostellers live the true campus life. Proximity to classrooms means more sleep, less stress and joy of last-minute rushes that still make it on time.

There are some cons also of the hostel life. The initial excitement often gives way to loneliness, especially during festivals and exams. Hostel mess food is legendary-not always for the right reasons. It makes students appreciate home-cooked meals like never before. With friends around 24/7, the line between fun and procrastination often blurs.

There's no "better" lifestyle- only what suits you best, Day scholars live in the warmth of home, while hostellers thrive in the thrill of independence. Each path teaches different life lessons and offers its own adventure.

So whether you're walking through your college gate from a bus stop or a hostel block, remember- it's not where you stay, but how you live that makes your college life truly unforgettable.

...

College life is a rollercoaster of emotions, experiences, and endless learning — but if there's one thing that truly defines it, it's friendship. The kind that starts with awkward hellos during orientation and soon turns into unbreakable bonds that outlast even the longest lectures.

In college, friendships are formed in the most unexpected corners — over shared notes, last-minute project submissions, or while waiting in line at the canteen. These friends become your support system, your secret-keepers, and your favourite people to make memories with. From laughing until your stomach hurts to crying over silly fights, every moment becomes a chapter in your personal Friendship Diary.

Hostel nights are another story altogether — full of whispered dreams, impromptu dance sessions, emotional heart-to-hearts, and midnight cravings. College friends are the ones who see your raw, unfiltered self and love you through your worst days and your best.

As semesters pass, bonds deepen. You celebrate each other's successes and pick each other up after every fall. Then comes the bittersweet goodbye — farewell parties, emotional hugs, and a thousand promises to stay connected.

But even after college ends, these friendships remain. They live on through old photos, voice notes, late-night calls, and reunions that feel like no time has passed at all.

In the grand narrative of The College Times, it's not the grades or degrees that stay with us the longest — it's the friendships. The inside jokes, the shared chaos, the quiet support, and the loud celebrations.

Because at the end of it all, when we look back at college, it's the people we laughed, cried, and grew with who truly make it unforgettable.

# F R I E N D S H I P D I A R I E S

...

# Words of Wisdom from our Mentor

**Dr. Ajazuddin**  
Group Director (R&D) &  
Principal (RCPSR, Bhilai)

In the words of the principal, growth is never a one-dimensional journey. It cannot be confined to textbooks, syllabus-bound lectures, or examination scores. Instead, true growth, as he often emphasizes, is a three-dimensional evolution — a blend of academic learning, personal relationships, and real-life experiences.

He believes that while academic excellence lays the foundation, it is the value of friendships, the excitement of extracurriculars, and the lessons from event management and teamwork that truly shape an individual. According to him, a student who knows how to balance equations but also knows how to balance relationships and responsibilities is the one who is truly educated.

In college corridors, he sees not just students, but future leaders, creators, and changemakers. He often highlights how organizing fests, participating in debates, managing clubs, or even handling a stall in a college fair teaches more than a chapter ever could. These moments cultivate leadership, communication, and empathy — qualities that no mark sheet reflects, yet every workplace demands.

His vision for education goes beyond ranks and grades. He encourages students to ask questions, make mistakes, collaborate, and most importantly, grow together. In every address, he reminds them: "The aim is not to just pass the course, but to let the course of life pass through you meaningfully."

In a world that's ever-changing, our principal believes that adaptability, emotional intelligence, and a well-rounded personality will always be the defining markers of success — and our college must be the place that nurtures all three.

# Role of management in student success

---

College life is not just about textbooks and exams—it's a dynamic journey where students explore their interests beyond academics. With various clubs like sports, games, dance, cultural events, coding, photography, and more, students often engage in multiple activities that enrich their college experience. However, managing all these interests alongside academic responsibilities requires planning, discipline, and passion.

Students develop time management skills early on. Most of them maintain a schedule that helps them balance study hours, assignments, and club commitments. They often plan their week in advance, allotting time for club meetings, rehearsals, or practice sessions while ensuring their academic work remains a priority. Many clubs hold their activities after class hours or on weekends, allowing students to participate without compromising their studies.

Collaboration also plays a major role. In every club, work is divided among members. Whether it's organizing a sports tournament, coordinating a cultural event, or planning a tech workshop, students share responsibilities to reduce pressure and increase efficiency. This teamwork not only strengthens bonds but also teaches valuable leadership and communication skills. Teamwork plays a vital role. Within clubs, duties are shared, making it easier to manage events without overburdening any one person. For instance, coding clubs may meet during weekends or evenings, while cultural and dance rehearsals are often planned around class hours. Sports clubs typically hold early morning or evening practices to avoid conflicts with lectures.

Digital tools like calendars, task management apps, and reminders help students stay organized. Moreover, many colleges support club participation by providing flexible schedules, faculty mentorship, and dedicated time for extracurricular.

What keeps students going is their passion. Doing what they love, whether it's coding a new app or performing on stage, motivates them to stay focused and productive in all areas. In fact, many students find that club involvement enhances their academic performance by keeping them mentally active and emotionally balanced.

In the end, it's not about doing everything—it's about doing what you love, with planning and purpose. That's how students turn challenges into achievements and make the most of their college journey.

**Dr. Parag Jain**  
(HOD, Dept. Pharmacology)

Teaching is often seen as a profession built on lectures, books, and lab work—but for some educators, it is much more than that. It's a journey shared with students, filled with memories, challenges, laughter, and growth. The classroom becomes a space where concepts meet creativity—like the time chromatography was explained through the bonds of human relationships, making the class both laugh and learn. Beyond lessons, real learning happens in moments of doubt turned into confidence, in research work once avoided but later celebrated. When students return with gratitude in their eyes and pride in their achievements, the effort feels worthwhile. For such educators, growth is not measured in grades but in the spark they help ignite—in minds, in confidence, and in connections. They believe true education lies in balancing intellect with emotion, guidance with freedom, and discipline with discovery. In every student interaction lies a story, and in every story, a reason to keep teaching and evolving.

College life is not just about academics but also personal growth through engaging experiences. Well-designed events like academic fests and innovation expos blend learning with fun, helping students apply classroom knowledge while developing creativity, teamwork, and communication skills. Adding cultural performances and games keeps the atmosphere lively and emotionally engaging. Inclusion is key—faculty can support shy or introverted students by encouraging participation through small group roles or behind-the-scenes tasks. With guidance and patience, every student can find a space to grow in confidence, making college a balanced mix of fun, learning, and meaningful involvement. Such events also promote peer bonding, reduce academic stress, and encourage a spirit of healthy competition. When students feel seen and supported, they become more motivated and enthusiastic. Ultimately, this inclusive and dynamic environment lays the foundation for holistic development and long-term success.

**Dr. Sanjay Kumar Gupta**  
Dean R&D, Pharmacology,  
RCPSR

**Dr. Kushagra Nagori, Dean**  
(Academics), Associate  
Professor, RIPER, Bhilai

College life is a vital phase for building both academic foundations and future careers. Balancing studies with vibrant experiences requires smart time management and a realistic schedule that includes learning and relaxation. Active class participation, clear goals, and regular self-assessment help maintain focus. Involvement in cultural, sports, and social activities boosts creativity and interpersonal skills. For career planning, self-reflection and understanding one's strengths and interests are key. Guidance from mentors, internships, and workshops adds clarity and confidence. By setting short-term goals aligned with long-term plans, students can enjoy college while preparing for a successful future.

# COLLEGE BUCKET LIST

---

## College Bucket List: The Trips That Make Memories

College life isn't just about lectures and exams—it's also about making unforgettable memories. One of the best parts? Planning those epic bucket list trips with friends. Whether it's a quick weekend getaway or a full-blown road trip, these adventures are often the highlight of college life.

Every group of friends has that dream destination—maybe it's a beach vacation, a hill station escape, or attending a music festival in another city. The planning is half the fun: budgeting, making itineraries, picking outfits, and imagining all the fun that's about to happen. Sure, things don't always go perfectly—missed buses, last-minute changes, or running low on money—but those hiccups usually turn into the best stories.

These trips aren't just about travel; they're about bonding, laughter, late-night talks, and making the most of student life. For many, it's a chance to take a break from routines, explore new places, and enjoy freedom before life gets serious.

In the end, it's not the place that matters most—it's the memories made with the people you go with. College bucket list trips might be short, but the stories and smiles they leave behind last forever.

# A Note from our Mentor

College life is often characterised as the best period of our lives. It is a frenzy of fun, learning, late-night chats, and last-minute test prep. It is during this time that friendships develop, characters emerge, and aspirations start to take form. However, the true test is not in the classrooms or Instagram stories but in juggling enjoyment, friendships, and aspirations for the future.

Fun isn't frivolous; it's vital. Whether it's a spontaneous trip, a festival night, or simply laughing over chai in the cafeteria, these experiences revitalise us. They are the memories that we will keep with us throughout our lives. However, it is easy to become lost in the excitement. Finding delight should never come at the expense of responsibility. Making time for hobbies, joining clubs, or simply relaxing with friends can be revitalising, as long as it is balanced.

College friendships are frequently the ones that last the longest. They are our support networks, encouraging us when we are successful and helping us to persevere when we are experiencing failure. The development of emotional resilience and communication skills can be facilitated by devoting time to friendships. However, boundaries are important in this context as well. Healthy friendships are those that respect each other's time, goals, and need for solitude or study, and that offer space for each person to develop their unique personality.

College life is all about having fun and making new friends, but it is also important to have an eye on the future. Internships, the development of skills, and academic success all have a role in determining the path that people choose once they graduate. However, planning does not mean pressure; rather, it means being prepared. A straightforward weekly routine, the establishment of short-term objectives, and an attitude that is receptive to learning can go a long way toward ensuring a prosperous future. How then can we manage to balance all three? Managing one's time and making choices consciously are the keys to success. Keep in mind what is most important daily. On some days, it is necessary to concentrate on studying, while on other days, it is more appropriate to spend time creating memories. Learn to say "no" when it is necessary, but also learn to say "yes" when the opportunity presents itself. Of the utmost importance, treat yourself with kindness. It is not perfection that is meant by balance; rather, it is awareness. A journey, not merely a phase, is what college is all about. A path toward becoming oneself. Students who can strike a balance between having fun, maintaining friendships, and making plans are not merely surviving college; they are thriving in it.

**Dr. Neema Sajju Balan**  
Principal  
G D Rungta College of Science & Technology

# The Dean's Desk : A Blend Of Fun & Education

**Ms. Farhat Anjum**  
Dean , GDR CST

College life brings with it a unique blend of challenges and opportunities. It is a phase where students must juggle academics, social interactions, and personal well-being—all while preparing for a successful future. Balancing classes, exams, and self-care is essential for both personal growth and professional development.

Friendship plays a vital role in this journey. It is one of the most beautiful aspects of college life. True friends stand by us through thick and thin, making even the toughest days easier. Friendship brings joy, reduces stress, and teaches us how to live life with happiness, regardless of circumstances.

To stay on track, students simply need to set their priorities. Time management, proper planning, and organizing daily schedules can make a huge difference. Creating a balance between academic responsibilities and personal life is key. As a teacher, I always encourage students to believe in themselves, stay motivated, manage time wisely, and most importantly—listen to their mentors.

Fun and learning go hand in hand. Participating in extracurricular activities not only adds joy to student life but also helps in developing essential life skills. These experiences make students more confident, responsible, and prepared for real-world challenges.

In the end, college is not just about books and exams. It's about finding yourself, forming strong bonds, and building a future full of purpose and passion.

# What college life gives you?

College isn't just where students earn a degree—it's where they discover who they are. In the process of attending classes, joining clubs, organizing events, and working in teams, students begin to build confidence, develop communication skills, and learn how to lead and collaborate. These experiences shape their personalities in powerful ways.

Whether it's giving a presentation for the first time, participating in a debate, or managing responsibilities in a college fest, each challenge adds a layer to their personal growth. They learn to handle pressure, make decisions, and express themselves with clarity and conviction.

College life also teaches adaptability—how to deal with people from diverse backgrounds, how to manage time, and how to balance multiple responsibilities. It's where shy students become confident speakers, and hesitant learners grow into leaders. College doesn't just prepare students for careers—it prepares them for life.

# Students Confession

## The Best and Worst Parts of College Life

But the real magic? Friendships. The late-night talks, unplanned trips, shared stress before exams, and celebrating small wins together—these moments create bonds that often last a lifetime. College is also where many of us start figuring out who we really are. It's a time of self-discovery, filled with experiments (both scientific and personal), and it teaches you independence in the best way possible

The Worst: Pressure, Uncertainty, and Homesickness. Of course, it's not perfect. Behind the Instagram stories and fun reels, there's pressure—academic stress, deadlines, expectations from family, and the constant comparison with others. Sometimes, you feel like you're barely keeping up. And then there's uncertainty. What if you're not on the right path? What if the job market doesn't look promising? That fear creeps in late at night when you're staring at the ceiling, wondering what the future holds.

College life—everyone tells you it's going to be the best time of your life. And while that's partly true, let's be honest: it's not always sunshine and smooth sailing. As students, we go through a whirlwind of emotions, experiences, and lessons that shape who we are. So here's a little confession, from the heart—the best and the worst of college life.

The Best: Freedom, Friendships, and Finding Yourself. There's nothing quite like the freedom college gives you. For the first time, you're making your own choices—about your routine, your priorities, and your future. You discover new passions, join clubs, participate in events, and maybe even lead something you never imagined you could.

Let's not forget homesickness—especially for international students or those living far from home. Some days, all you want is your mom's food and a break from pretending you've got it all figured out.

College life is a mix of highs and lows. It can be overwhelming and wonderful, exhausting and exciting—all at once. But every struggle teaches something, and every moment adds to a story you'll one day look back on with a smile. Because the truth is, both the best and worst parts of college shape you into someone stronger, wiser, and ready for the world

# MEMOIRS BY OUR HODs

**Dr. Amit Shrivastva**  
HOD(Sciences) , GDRCS

College life is not solely about academics and examinations; it is a crucial period of personal growth, exploration, and the development of meaningful relationships. One of the most defining aspects of a student's college journey is friendship, which plays a powerful role in shaping a student's personality and future.

Friendships formed during college years can significantly influence a student's character. Friends often stand by during challenging times, offering support, motivation, and the constructive criticism needed for growth. True friends act as mirrors, helping individuals recognize their weaknesses and encouraging them to improve. Many students are often unaware of their own shortcomings until pointed out with care and sincerity by their closest companions.

However, friendships can become a double-edged sword if they are not grounded in the right values. True friendship should never distract a student from their goals. If a relationship causes a loss of focus or derails ambitions, it may not be a genuine friendship. Real friendship is built on mutual respect and the shared desire to see each other succeed. A true friend encourages perseverance, motivates others to stay on track, and supports them in facing life's challenges.

The college years are more than just a phase of education—they are the foundation of a student's future. It's during this time that students begin to discover their interests, sharpen their abilities, and shape their dreams. As an educator, I have always believed that the future is built not only through academic learning but also through personal growth and real-life experiences.

Students must learn to strike a balance—between fun and focus, friendship and responsibility. While it's important to enjoy college life and build strong bonds, it is equally essential to stay committed to long-term goals. The habits, mindset, and choices made today play a powerful role in the journey ahead.

My message to every student is simple: believe in your potential, stay curious, and never stop learning. The future is full of possibilities—make sure you're ready to meet it with confidence and purpose.

**Dr. Sushil Punwatkar**  
HOD(Management) , GDRCS

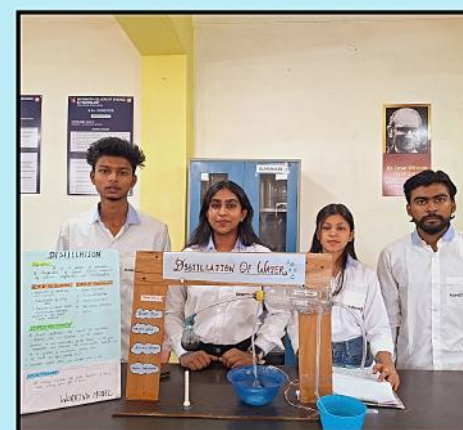

# National Science Day

Science came alive at GD Rungta College as students, faculty, and innovators celebrated National Science Day with enthusiasm and curiosity. Centered on the theme “Science for a Sustainable Future,” the event featured exhibitions, tech demos, and student-led projects—from AI models to renewable energy solutions.

Guest lectures and workshops by scientists and alumni enriched the day, emphasizing that science is more than a subject—it’s a mindset and a tool for change. Students took the lead in organizing activities, making it a vibrant, hands-on learning experience.

Competitions like the Science Quiz and Poster Presentation added excitement, while first-year and international students found fresh inspiration in the event’s inclusive spirit. At GD Rungta College, Science Day wasn’t just a celebration—it was a spark for future innovators.

# Building Pathways

**Dr. Edwin Anthony**  
Group Director  
(Career Development Centre)  
Rungta Educational Foundation

At Our College, We Take Immense Pride In Our Dedicated Training And Placement Cell (T&P Cell), Which Plays A Crucial Role In Bridging The Gap Between Academics And Industry. The T&P Cell Is Actively Involved In Preparing Students For The Professional World Through A Well-Structured Approach That Includes Technical Training, Aptitude Sessions, Soft Skills Development, Resume-Building Workshops, And Mock Interviews. These Initiatives Are Designed To Enhance Students' Employability And Ensure They Are Industry-Ready By The Time They Graduate.

Each Year, The T&P Cell Successfully Facilitates Campus Placements By Bringing In A Wide Range Of Reputed Companies From Various Sectors Such As IT, Healthcare, Finance, Manufacturing, Education, And More. Many Of Our Students Receive Multiple Offers And Pre-Placement Offers (PPOs) As A Result Of Internships And Strong Industry Engagement.

In Addition To Regular Placement Activities, We Host An Annual Mega Event Called Placementnamaa. This Flagship Event Is Open Not Only To Our Students But Also To Students From Other Institutions, Offering A Unique Platform To Interact With Top Recruiters. Through Placementnamaa, Participants Gain Access To Exclusive Job Opportunities, Career Counseling Sessions, And Hands-On Exposure To Real Recruitment Processes. It Has Become A Highly Anticipated Event That Significantly Boosts The Placement Prospects Of All Participating Students.

This Year's Placement Season Has Been Remarkable, With Students Securing Top Roles Across Diverse Sectors. The Highest Package Offered Was ₹28 LPA By A Leading SAP Company, And The Average Stood At ₹6.5 LPA—Highlighting The Strong Industry Demand For Our Graduates. Over 65 Companies Participated In The Placementnamaa Event, With Active Hiring Across Sectors Such As Pharmacy, ITI, Healthcare, IT & Software, Automotive, Finance, Retail, Manufacturing, And Education. These Opportunities Included Both Internships And Full-Time Roles, Showcasing The Adaptability And Broad Skill Sets Of Our Students. Strategic Collaborations With Industry Leaders Like Google Campus 2.0 And TCS, Where We Are A Priority Center, Have Also Provided Students With Exclusive Training And Placement Drives.

A Strong Emphasis On Real-World Experience Has Further Boosted Student Success. Internships, Technical Training, Live Projects, And Certifications In Areas Like SAP, Data Analytics, And Cybersecurity Have Proven Instrumental In Enhancing Employability. Many Students Who Interned Secured Pre-Placement Offers (PPOs), Reflecting The Value Of Hands-On Exposure. Alongside Technical Skills, A Continued Focus On Soft Skills—Communication, Teamwork, And Problem-Solving—Has Ensured Our Students Are Industry-Ready And Well-Rounded Professionals Prepared To Meet The Evolving Demands Of Today's Job Market

# सच हुए SAPNE

APRIL 2025

Every year, our institute proudly organizes the B.Tech Graduation Night to celebrate the achievements and success of our graduating students. Continuing this cherished tradition, this year's event was held under the heartfelt theme "सच हुए Sapne", symbolizing the dreams that have come true for our students.

The highlight of the evening was the distribution of offer letters to 1800 placed students, marking a significant milestone in their professional journey. The ceremony was graced by our esteemed chief guest, Mr. Rikesh Sen, Member of Parliament, Durg, who personally handed over the offer letters to the proud students.

What made the evening even more special was the presence of parents who accompanied their children to share in this joyous occasion. The students who received placements celebrated the moment with their parents, faculty, teachers, and friends, creating memories filled with pride and happiness.

The night concluded with a joyful dinner, where students, parents, and faculty bonded over laughter, achievements, and dreams for the future. "सच हुए Sapne" was not just an event—it was a celebration of hard work, dedication, and the beginning of new journeys.

# CHESS

## Chhattisgarh Entrepreneurship & Startup Summit

Organized by Rungta Business Incubator (RuBI)

Hosted at Rungta College of Engineering & Technology, Bhilai

March – 2025

### Our Vision & Purpose

CHESS was born from a bold vision – to ignite the entrepreneurial spirit of Central India and position Chhattisgarh as a rising hub for innovation. At a time when most startup energy is concentrated in metro cities, CHESS aims to decentralize opportunity by bringing capital, mentorship, and community to Tier 2 and Tier 3 cities.

Through CHESS, we want to empower student founders, early-stage startups, and local innovators by connecting them with the national and global ecosystem – investors, mentors, government bodies, and enablers.

It's not just a summit. It's a movement to create a founder-first, resource-rich startup culture in this region.

### Objectives of CHESS 2025

- Build an annual platform that connects startups, VCs, and government stakeholders
- Facilitate funding and mentorship for promising early-stage startups
- Position RuBI as Central India's leading startup launchpad
- Inspire youth participation through founder stories and role models

Forge strategic partnerships to sustain the ecosystem year-round

### Impact & Outcomes

Metric	Outcome
Startups Participated	900+
Venture Capital Firms Engaged	23
Masterclasses & Panel Discussions	20+
Speakers & Domain Experts	50+
Parallel Pitching Sessions	2 Days of curated startup pitches
MoUs Signed	5+ (with key incubators & VCs)
Investor-Startup Intros Made	150+ targeted connections
Government Leaders Engaged	5+ Ministers and Senior Bureaucrats

### Speaker Spotlights

 Shri O.P. Choudhary – Finance Minister, Chhattisgarh

Theme: Policy-Led Growth For A Startup-Driven Economy

Set The Tone For Public-Private Collaboration By Announcing State Support For Innovation Hubs And Early-Stage Entrepreneurs.

 Shraddha Sharma – Founder & CEO, YourStory

Theme: The Power Of Founder Storytelling

Electrified The Audience With Her Take On Authenticity, Media Leverage, And Building Communities Around Brands.

 Ankur Aggarwal – Co-Founder, Dunzo

Theme: From Execution Chaos To Startup Success

Shared Hard-Hitting Insights On Scaling Operations, Building Trust With Customers, And Surviving Pivots.

 Bhawna Bhatnagar – Co-Founder, We Founder Circle

Theme: Investing Beyond Metros

Advocated For Tier-2 Founder Funding And Unveiled Plans To Support Startups Discovered At CHESS.

 Vikaas Khdloya – Ex-MD Blackstone; Founder, Boundless Capital

Theme: Funding With Foresight

Talked About Balancing Valuation Hype With Fundamentals, Especially In New Bharat Markets.

#### Sessions That Mattered

- Zero-To-One Journey: Practical Founder Sessions On Going From Idea To MVP To Scale
- AI & Automation In Bharat: Impact On Jobs And Business Models
- The Role Of VCs In Purpose-Driven Startups: Hosted By Top Fund Managers And Angel Investors
- Family Offices In Venture Investing: Exploring The Next Big Capital Wave
- Next-Gen Founders: Legacy To Innovation Transitions

Public-Private Partnerships: Building With Government, Not Just For Them

These MoUs Are More Than Paper – They're Execution-First Partnerships That Will Extend Well Beyond CHESS And Power RuBI's 2025-26 Programs.

These Partnerships Aim To Enable:

- Cross-Incubation Opportunities
- Deal Flow For Tier-2 Founders

Investor-Access Channels For CHESS Startups

Hosted in parallel tracks, the RuBI Conference Hall buzzed with live investor pitches

Investors from SoftBank, Fluid Ventures, Peachtree Ventures, RealTime Angels, Campus Angels, and more attended

Over 150 investor-founder meetings were facilitated across two days

Looking Ahead: CHESS 2026 & Beyond

Following The Massive Momentum Of CHESS 2025, RuBI Is Now:

Exploring An AIF (Alternative Investment Fund) Focused On Bharat-Based Early-Stage Startups

Launching Year-Round Mentorship Cohorts And Investor Connects For CHESS Startups

Expanding CHESS To Include Student-Only Pre-Events, Building A Strong Founder Pipeline

Initiating Cross-Border Ecosystem Partnerships With The GCC Region, Led By Aamukh Capital

#### Organizing Team

G.Venugopal-CEO,Rungta Business Incubator

Anurag Sharma – Strategy & Partnerships Lead

C.S. Nagendra, Dr. Rahul Mishra, V. Hemant Kumar – Incubation Team

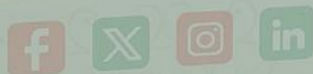

**HackIndia 2025, India's Largest Web3 And AI Hackathon, Hosted Its Spark 4 Regional Event At Rungta College Of Engineering & Technology In Bhilai, Chhattisgarh, On April 1-2, 2025. This Event Was Part Of A Nationwide Series Engaging 25,000 Participants From 150 Universities Across 20 Cities, Culminating In A Grand Finale In Delhi With A \$150,000 Prize Pool.**

**HackIndia's Mission Is To Connect Indian Students And Universities With Emerging Web3 And AI Technologies By Providing Education, Resources, And Opportunities While Eliminating Barriers To Entry. The Initiative Is Not Just A Hackathon—It Is A Movement To Empower India's Youth By Fostering Innovation, Skill Development, And Career Growth.**

**At Spark 4, Rungta College Teams Secured Both First And Second Positions, Demonstrating Exceptional Innovation And Technical Prowess. The Winning Teams Advanced To The National Finals At Leela Palace, Delhi, Joining Top Teams From 20 States.**

hackindia.xyz

#HackIndia2025

**HackIndia 2025 Introduced New Features To Fuel Real-World Innovation. For The First Time, Teams Gained Access To Accelerated Grants And Industry Mentors To Develop Their Web3 And AI Projects Beyond The Hackathon Stage. This Initiative Enabled Young Developers To Transform Their Ideas Into Tangible Solutions, Pushing The Boundaries Of Web3 Innovation In India.**

**Furthermore, HackIndia 2025 Addressed A Crucial Need For Students By Providing Career Pathways. The Ten Events Featured Opportunities For Participants To Network With Leading Employers, Explore Career Options, And Even Interview For Roles Within The Web3 And AI Sectors. This Addition Reflected HackIndia's Broader Commitment To Not Only Educating Students But Also Helping Them Secure Meaningful Employment**

## Igniting Campus Spirit: The Vibrant World of ECS at Rungta RI College

At Rungta RI College, life beyond classrooms thrives under the dynamic leadership of the Extra-Curricular Activities and Sports (ECS) Team, a driving force behind some of the most memorable and enriching experiences for students. From cultural festivals to skill-building sessions, ECS plays a pivotal role in shaping a vibrant and engaging campus environment.

Guided by the visionary Mr. Mahendra Shrivastava, Group Director – Student Welfare and ECS, the ECS Team is a powerhouse of dedication and creativity. The Core Team, consisting of esteemed members including Dr. Satyadharma Bharti (Dean ECS), Dr. Rejo Roy (Incharge ECS), Dr. Priyanka Singh, Ms. Jyoti Singh, Mr. Praveen Mahapatra, Mukesh Sharma, Ms. Rashnita Sharma, Ms. Anshita Shukla, Ms. Alka Patel, Ms. Farhat Anjum, Ms. Savita Pandey, and Mrs. Asha Manikpuri, works tirelessly to conceptualize and execute a wide array of events.

ECS organizes iconic events like Holi Milan, VYOM Tech Fest, Farewell Celebrations, Independence Day, Foundation Day, and impactful initiatives such as Blood Donation Drives—each a celebration of student energy, creativity, and collaboration.

A cornerstone of ECS is the Rungta Students Development Centers (RSDC), an innovative initiative that nurtures growth through theme-based student clubs. With Saturdays dedicated to club activities, students actively participate in a wide range of enriching experiences.

**Dr. Rejo Roy**  
**Associate Professor**  
**Electrical Engineering Department**  
**& Incharge ECS**

From entrepreneurship, coding, and fine arts to mental wellness, leadership, and alumni networking—RSDC Clubs like RUBI, COPE, Rangmanch, RISE, Beacon, and more offer a dynamic platform to explore, express, and evolve.

The ECS Team of Rungta RI stands as a testament to the belief that education is not just about books and exams—it's about creating experiences, memories, and a sense of community. With passion, purpose, and perseverance, the team continues to inspire and uplift the student body year after year.

## THEME:

**VYOM**, the annual fest of Rungta College of Engineering and Technology, embraces the thrilling theme "Stranger Things" this year! Dive into a world where mystery meets excitement, and the ordinary turns extraordinary. Get ready for electrifying events, mind-bending challenges, and a celebration filled with suspense, creativity, and supernatural vibes.

## INAUGURATION:

The grand inauguration of **VYOM**, the annual fest of Rungta College of Engineering and Technology, began with great enthusiasm as our respected Chairman Sir released balloons, symbolizing the soaring spirit of the event. His inspiring speech set the tone for the celebrations, encouraging students to explore, create, and celebrate the extraordinary. It marked a powerful start to **VYOM 2025**

- **PM Vishwakarma Yojana** – Ye ek Business Loan hai Jo chote Kam Karne Walon Ke liye hai, Jahan aapko 3 Lakh Tak ki Loan Sirf 5% Interest Par Milti hai.
  - **Mudra Loan** – Shishu, Kishor, Tarun– Ye Business aur Personal Loan Dono Provide Karti hai jahan chote Dukaan, factory aur chote Startups ke Liye hai aur Aap 50,000 de 10 Lakh Tak Loan Le Sakte Ho.
  - **SBI Xpress Credit**– Ye Aapko Personal Loan Provide Karti hai wo bhi sirf salaried logon ke liye, Isme Fast approval aur aapko 25 Lakh Tak ka Loan aur aapko 6 sal me Repay karna hota hai.
  - **HDFC Commercial Vehicle Loan** – Truck, auto ya used vehicle ke liye Hoti hai aur Iski Flexible EMI, Aur aapko Used vehicle pe bhi loan milega.
  - **PNB e-Vahan Loan (Personal + EV Vehicles)** – Bike, car ya e-rickshaw ke liye Hoti hai Isme Aapko EV par extra discount aur Iski Interest rate kaafi kam Hoti hai.
- Loans, Banks and NBFCs Ke Bare me Janne Ke Liye Mujhe Follow Kare.

### THE CONCERT NIGHT:

The Concert Night at VYOM, the annual fest of Rungta College of Engineering and Technology, was an unforgettable evening filled with energy, excitement, and electrifying performances. The highlight of the night was the presence of renowned playback singer Divya Kumar, who graced the event as a VIP guest. His powerful voice and dynamic stage presence captivated the audience, creating a magical atmosphere. Students danced, sang along, and made memories that will last a lifetime. Thumping beats, and a crowd full of enthusiasm, it truly was a night to remember for all of us.

### THE AWARD CEREMONY:

The Award Ceremony of VYOM, the annual fest of Rungta College of Engineering and Technology, was a grand celebration of talent and achievement. Winners from various events were honored on stage by our esteemed Chairman and respected guests, recognizing their excellence and dedication. The atmosphere was vibrant with joy and pride as students showcased their cultural talents through captivating singing and dance performances. This finale brought together creativity, celebration, and recognition, making it a memorable conclusion to VYOM. The applause, cheers, and shining trophies reflected the hard work and spirit of every participant, making the evening truly unforgettable.

# VICTORY CORNER

Vyom - the flagship annual fest of our college, serving as a vibrant celebration of creativity, talent, and energy. The fest reflects the spirit of unity, passion and leadership, making it one of the most anticipated events of the academic year. It unites students from all streams to take part in exhilarating cultural showcases, intense competitions and exciting tech-based events. More than just a festival, Vyom is a tribute to youthful passion, innovation, and the vibrant spirit that defines our student community. What truly sets Vyom apart is its student-driven essence. From conceptualizing themes to executing every detail, it is a festival for the students, by the students. Vyom isn't just an event- it's a feeling. It's the laughter echoing from a flash mob, the nerves before going on the stage, the cheer of the crowd, the pride of winning and the memories that linger long after the lights go out. Vyom offers an unforgettable experience that highlights the college's lively spirit and promotes a strong sense of unity among students.

## Prize Distribution

# HIGHLIGHTS

The College Times

# HOLI MILAN

The spirit of Holi came alive at our college as both teaching and non-teaching staff gathered to celebrate Holi Milan with immense joy and togetherness. The event was filled with vibrant colors, heartfelt laughter, and endless smiles, creating a beautiful atmosphere of unity and happiness.

Everyone participated wholeheartedly, forgetting all roles and titles, and simply enjoying the festive spirit. Colors were smeared with love, and laughter echoed across the campus as colleagues bonded over playful moments. The celebration symbolized not just the arrival of spring but also the strengthening of bonds within our college family.

Music, dance, and traditional sweets added charm to the celebration. Staff members performed lively group dances, sang Holi songs, and shared cheerful banter over gujiyas and thandai. It was heartwarming to witness such energy and enthusiasm among everyone, making the day truly special.

# HOSTEL NIGHT

The Hostel Night Celebration at Rungta College lit up the evening with infectious energy, laughter, and togetherness. The hostel ground buzzed with excitement as students gathered for a night dedicated to dance, fun games, and unforgettable memories.

The event began with a warm welcome by the Hostel Warden, who emphasized the importance of hostel life in shaping character, friendships, and self-reliance. This was followed by a few encouraging words from the Faculty Coordinators, who appreciated the students' enthusiasm and reminded everyone to enjoy their time together responsibly.

Soon after, the celebration kicked off with lively dance performances, spontaneous dance battles, and music that had everyone on their feet. The rhythm and energy didn't stop as students participated in fun-filled games and team activities, sparking laughter and bonding across all batches.

With cheers echoing through the campus, the evening brought a perfect mix of relaxation and celebration. Hostel Night 2024 proved once again that some of the best college memories are made right where we live, laugh, and grow—our hostel.

# Girls Hostel Trip

Our Much-Awaited College Trip Has Just Begun, And This Year's Destination Is The Serene Town Of Dongargarh. With Bags Packed And Hearts Full Of Excitement, We're Ready For The Perfect Mix Of Adventure And Spirituality. The Journey Promises Temple Visits, Nature Walks, And Endless Memories With Friends. Can't Wait To Experience It All Together!

Dongargarh Trip Was The Perfect Mix Of Peace And Fun. The Ropeway Ride And Temple Visit Gave Us Calm Moments And Stunning Views. We Laughed, Clicked Selfies, And Made Memories That Brought Us Closer. It Truly Felt Like A Short, Refreshing Escape With Our Favorite People.

The Trip Was Well-Organized, Safe, And Budget-Friendly, Just Like Every Year. Our College Trips Are Always Fun, But This Dongargarh Trip Was Something Special. It Felt Peaceful, Refreshing, And Gave Us A Break From Our Busy College Life. The Perfect Mix Of Temple Visits, Scenic Views, And Time With Friends Made It My Favorite Trip So Far. Big Thanks To Our College For Planning Such A Well-Balanced And Meaningful Experience!

# Campus Chronicles

MARCH 2025

## International Women's day

...

Rungta College proudly celebrated International Women's Day with great enthusiasm and spirit on march 8th. The campus echoed with laughter, music and messages of strength as students and staff came together to honor the fierce, fabulous women who inspire us every day. From power-packed performances to inspiring speeches, every moment was a tribute to womanhood. Stories of unstoppable women, awards recognizing real-life superwomen on campus, and a celebration that was as bold and beautiful as the women it honored.

# NSS CAMP

The National Service Scheme (NSS) unit of Rungta College of Engineering and Technology, R-1, Bhilai organized a seven-day special camp in Jewra village from March 6 to 12. A total of 54 engineering students participated, conducting surveys on digital literacy, cyber security, and "My Bharat" registration in over 240 households. Villagers were educated about cyber fraud prevention and online safety through direct interactions.

Each morning began with an awareness rally (Prabhat Pheri) echoing messages about women's education and social consciousness.

## A WEEK OF SERVICE

## NSS TRAFFIC AWARENESS CAMPAIGN

On March 25, 2025, the National Service Scheme (NSS) unit of Rungta College of Engineering and Technology, Bhilai, organized a Traffic Management and Awareness Program at Supela Ghadi Chowk, Bhilai. The event started at 2:00 PM, with volunteers and faculty members like Dr. Satyadharma Bharti, Dr. Mahendra Shrivastava, Dr. Albert John Varghese, Dr. Rejo Roy, and Ms. Shruti Wasnik ensuring smooth execution.

During the program, volunteers, guided by traffic personnel, helped manage traffic, ensured that commuters followed traffic lights, and promoted the use of helmets and seat belts. They educated people on the dangers of overriding and overspeeding, emphasizing the impact of unsafe driving on society and families.

To encourage compliance, responsible commuters were appreciated with flowers. Mickey Mouse and Minnie Mouse cosplayers, along with teachers and volunteers, made the event lively, reinforcing the importance of safe driving habits.

# BEYOND THE CLASSROOMS – EXTENDED LEARNING

## MICROSOFT OFFICE VISIT

MARCH 2025

Visit to Microsoft Office, Delhi – A Dream Come True for Tech Enthusiasts

Our college recently organized a remarkable industrial visit to the Microsoft Office in Delhi, exclusively for B.Tech students from 2nd year and above. This four-day educational trip turned out to be a truly enriching experience, offering students an insider's look into one of the world's most iconic tech companies.

The visit began with a guided tour of the Microsoft campus, where students explored the modern workspace, smart conference rooms, and collaborative zones designed to encourage innovation and creativity. They got the chance to observe the professional environment, understand how teams function in real-time, and witness the blend of technology with day-to-day operations.

Interactive sessions were held with Microsoft professionals who shared their experiences, gave career advice, and spoke about the latest trends in software development, artificial intelligence, and cloud computing.

Students were especially inspired by the work culture, the emphasis on creativity, and the freedom employees enjoy while working on high-impact projects.

For many students, visiting Microsoft was nothing short of a dream come true. As future engineers and developers, standing inside the office of a global tech leader was both exciting and motivating. It gave them a glimpse of what lies ahead in their career path and ignited a passion to work harder toward their goals.

For many students, visiting Microsoft was nothing short of a dream come true. As future engineers and developers, standing inside the office of a global tech leader was both exciting and motivating. It gave them a glimpse of what lies ahead in their career path and ignited a passion to work harder toward their goals.

The trip also helped students understand the importance of skills beyond academics—like communication, teamwork, and adaptability—which play a major role in the professional world. Faculty members accompanying the students ensured that the trip was smooth, educational, and engaging at every step.

The visit concluded with unforgettable memories, a better understanding of the tech industry, and a deep sense of inspiration that will stay with the students for a long time. Such opportunities not only bridge the gap between classroom learning and real-world application but also encourage students to dream big and stay curious.

# RARE AWARDS

APRIL 2025

The RARE (Research Award for Research Excellence) Ceremony 2025 was successfully organized by the Central Research Committee (CRC) of the Rungta Educational Foundation (REF) under the visionary leadership of Dr. Ajazuddin, Group Director – R&D. Celebrated on National Technology Day, the event honoured and recognized outstanding research contributions by faculty members across all institutions under the Rungta Group.

The ceremony was graced by the Honourable Prof. Rajeev Prakash, Director, Indian Institute of Technology (IIT), Bhilai, who served as the Chief Guest. He addressed the gathering with his visionary thoughts on fostering a strong institutional research culture and emphasized the role of innovation in shaping academic excellence.

The RARE Awards 2025 aimed to motivate and acknowledge faculty for their measurable research outcomes, reinforcing REF's commitment to cultivating a vibrant research ecosystem. Key evaluation areas included journal and conference publications, patent filings and grants, funded research projects, Ph.D. supervision, book authorship, research-based MoUs and collaborations, and notable innovations and technology transfers.

The awards were determined using the Research Performance Index based on the Research Policy 2024, ensuring a transparent and score-based evaluation of contributions from the calendar year 2024.

The program began with the arrival of dignitaries, traditional lamp lighting, and floral welcomes extended by the management and senior faculty. The success of RARE 2025 not only celebrated scholarly achievements but also reaffirmed REF's unwavering dedication to research excellence and faculty empowerment.

# A NEW BEGINNING RCET (2021-25)

The College Times

MAY- 2025

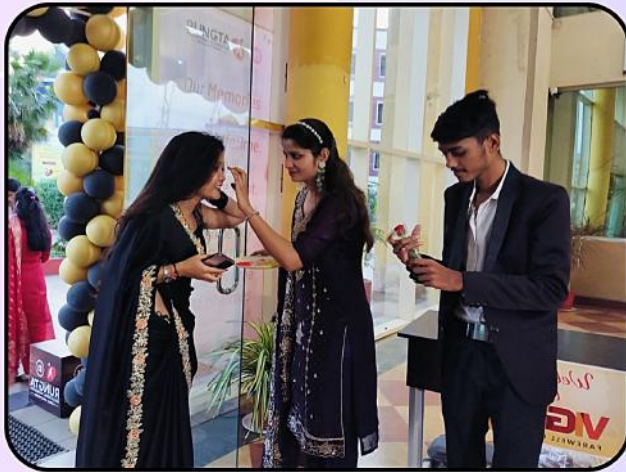

As the graduating B.Tech students of RCET prepare to embark on new journeys, RCET Chronicles proudly celebrates your achievements. From your first steps on campus to the milestones you've reached, you've grown into innovators, leaders, and lifelong learners. Your laughter, ideas, and hard work have left a lasting legacy within these walls. Each friendship, challenge, and success has shaped the vibrant spirit of RCET. Though you leave the campus behind, the values and memories will remain with you always. We bid you farewell with pride and hope, knowing you carry RCET's name into the world. Shine brightly, chase your dreams, and remember—you will always be a part of the RCET family

MAY- 2025

## A NEW BEGINNING GDR CST (2022-25)

As the BBA and BCA graduates of GDR CST prepare to step into the professional world, GDR CST Herald proudly reflects on your journey. You came as students eager to learn; today, you leave as visionary leaders, innovative thinkers, and tech-savvy professionals ready to make your mark.

Your time here was filled with brainstorming sessions, business pitches, coding marathons, teamwork, and lifelong friendships. You didn't just study—you built ideas, solved problems, and grew into individuals who embody the spirit of GDR CST.

Though you now leave the classrooms and labs behind, the lessons, values, and memories will stay with you. As you step into new roles and challenges, may you carry forward the pride of GDR CST and continue to inspire.

Farewell, graduates—your journey is just beginning, and the world awaits your brilliance.

# A NEW BEGINNING RCPSR (2021-25)

MAY- 2025

As the pharmacy graduates of RCPSR step forward into the world of healthcare and healing, RCPSR Bulletin celebrates your remarkable journey. You entered these halls as curious students, and today you leave as skilled professionals—ready to serve, innovate, and make a difference in people's lives.

Your years here were filled with experiments, late-night studies, patient case discussions, and the pursuit of knowledge that saves lives. Each challenge strengthened your commitment, each success brought you closer to your calling.

As you leave RCPSR, remember that the profession you chose is not just a career—it's a responsibility, a promise to care, to heal, and to lead with compassion.

Farewell, graduates—may your knowledge be a light, and your heart, a guide. The world needs you.

# Thoughts from the Students Pen

## We GROW through what we GO through

These days, it feels like I'm a sleepless wanderer, drifting through a direction I can't quite trace. Some mornings, I feel like life is sprinting ahead while I'm still trying to lace my shoes. Other days, it feels like I'm the one running, chasing something I can't name. The day begins with the hush of a morning breeze, but the sunrise slips away unnoticed. By evening, I've missed the sunset too. All that remains is the blur of passing time — day melting into night, night into another hurried dawn.

Time no longer walks. It sprints. My mornings begin after barely two or three hours of broken sleep, and before my body can adjust, the world demands more. The fun of college life, they say, is unmatched — and perhaps that's true. But when you carry more than your own dreams, when you carry expectations, tasks, and people who count on you, you stop being just a student. You become a presence others rely on. A voice. A decision. A support. And when I look back, I can calmly say, "Ek saal purani wali Anshika ab poori tarah badal chuki hai."

The girl I was — quiet, uncertain, counting hours just to get through the day — is now gone. She once imagined college would be all bucket lists, café visits, and late-night giggles. But today, that dreamer lives in a world that's louder, faster, heavier. Now, I am surrounded by people, yet often wrapped in responsibilities that leave little time to breathe.

Yes, I've grown.

I'm living the "reel" college life, but behind every smiling picture is a reality of racing deadlines, midnight brainstorming, and days that feel too short for all that needs to be done. I wake up early, push through lectures, juggle personal growth with team duties, and when the world sleeps, I work. There are moments when I feel like collapsing, moments

when I whisper to myself, "Bas, yahin ruk jaati hoon."  
But then something inside me says, "Nahi... isliye toh aayi thi."

This is the life I once prayed for. A life of purpose. A life that tests me, stretches me, shapes me.

No, it's not easy. To wake up each day with weary eyes and still carry on with a determined heart, it takes courage. To give more than you take, to show up when you feel like hiding, to smile through fatigue — it all takes more strength than I ever thought I had. But somewhere in this exhaustion, this chaos, this breathless race, I've found pieces of myself I never knew existed.

Growth doesn't always come with fireworks. Sometimes it arrives quietly — through struggles that seem never-ending, through nights when you cry silently, through days when quitting tempts you.

But you don't quit. You adapt. You rise. You become.  
Because in the end, we grow through what we go through.

**Anshika Kumari**  
**BCA 1st Year**

# The Illusion of Presence

Voices echo, smiles deceive,  
Promises made, yet none believe.  
Hands that hold but never stay,  
Love is fleeting, fades away.

Words are spoken, empty, cold,  
Truths are bent, the lies unfold.  
One who gives, who stands so near,  
Becomes unseen, erased, unclear.

Time is spent, yet none remains,  
Hearts invested, met with chains.  
Always there, yet cast aside,  
A nameless face in shifting tides.

No return, no second glance,  
No fair play in fate's romance.  
The ones who stay are left ignored,  
While absent souls are still adored.

Such is life, a cruel disguise,  
Where truth is lost in hollow ties.  
A lesson carved in fleeting grace,  
Never chase—just know the place.

Anant kesharwani

BBA 3rd year (GDRCST)

# Poetries

समय को खोकर हम,  
पछताते जा रहे हैं!

मन उदास है, फिर भी  
दिल में जीत की उम्मीद  
लिए हम जिए जा रहे हैं!

मालूम है मिल ही जाएगी मंजिल,  
फिर भी दुनिया के तानो को  
हम सुनते जा रहे हैं!

बदलेगा जब समय,  
तब पाएंगे मंजिल को  
इसी चाह में हम और आगे बढ़ते जा रहे हैं!

## हार नहीं हूं मैं

हर राह मेरी अकेली रही।  
ना जीत मिली, ना नाम हुआ,  
बस दिल में एक जंग तमाम हुआ।

गिराहर कदम, फिर भी चला,  
हर दर्द को चुपचाप सहा।  
हँसी उड़ा ली सबने मेरी,  
पर आंखों में थी आग गहरी।

मेरी हार अब मेरी शान बनी है,  
जो दर्द थे वो मेरी पहचान बनी है।  
मैं वो दीया जो तूफ़ानों में भी जला,  
मेरी रोशनी अब इतिहास बनी है!

# "उड़ान – तेरे हौसले की पहचान"

मत रुक, मत झुक, मत हार मान,  
तेरी उड़ान से बड़ा नहीं है आसमान।  
अंधेरा तुझे डरा नहीं सकता,  
हवा का रुख मोड़ा जा सकता !

हर ठोकर एक सबक बन जाएगी,  
हर गिरावट तुझे उड़ना सिखाएगी।  
जो जलता रहा, वही सूरज बना,  
जो चलता रहा, वही मंज़िल मिला।

तेरी मेहनत ही तेरी तक़दीर लिखेगी,  
तेरी हिम्मत ही तेरी तक़दीर बदलेगी।  
ख्वाब गर सच्चे हैं, हौसले गर बुलंद,  
तो नामुमकिन कुछ भी नहीं इस धरती पर, सनम !

उठ, बढ़, चमकने का वक्त आ गया,  
तेरी काबिलियत ही तेरा आसमां बनेगा !

Abhishek Dewangan

1st year (GDRCST)

## तुम चलो तो सही

---

“राह में मुश्किल होगी हजार,  
तुम दो कदम बढ़ाओ तो सही,  
हो जाएगा हर सपना साकार,  
तुम चलो तो सही, तुम चलो तो सही।  
मुश्किल है पर इतना भी नहीं,  
कि तू कर ना सके,  
दूर है मंजिल लेकिन इतनी भी नहीं,  
कि तू पा ना सके,  
तुम चलो तो सही, तुम चलो तो सही।...”

# From the Faculties Pen

## The Chalk and the Flame

---

In quiet halls where voices rise,  
Beneath the lights, so bright and wise,  
A hand holds chalk like ancient scroll,  
To shape a mind, to shape a soul.

Each word inscribed upon the board,  
Becomes a spark, becomes a sword,  
To fight the dark, to seek the truth,  
A torch passed on from age to youth.

No trumpet sounds, no medals shine,  
Yet every lesson draws a line—  
A path where dreams may start to grow,  
Where seeds of thought are made to glow.

So here's to those who light the way,  
With every lecture, every day—  
The chalk may fade, the dust may fly,  
But knowledge burns, and won't run dry.

-Tusshar Yadav

## पुरुषार्थ...

आंखों के आंसू को पीते हुए ,  
पुरुष बन जाता है पुरुषार्थ ,  
तब जाकर कहीं ,  
पसीने की खुशबू से महकता है परिवार ,  
पर कभी-कभी बंद कमरे में ,  
हृदय से रोता है पुरुष का पुरुषार्थ ॥

पुरुष के भीतर का अनवरत धैर्य ,  
कैसे बार-बार टूटने पर भी जोड़ता है ,  
जैसे पानी जोड़ती है, सीमेंट, कंकड़ और रेत ,  
को दे एक कठोर आकर कंक्रीट के रूप में ॥

अवश्य ही पुरुष को प्रेम की परीक्षा देना नहीं आता ,  
क्योंकि पुरुष को कभी अपने लिए कुछ नहीं चाहिए ,  
उसे बस चाहिए हृदय भर प्रेम ,  
उसके भीतर के दुख में सर ठिकाने के लिए एक कंधा ,  
आंसू पूछने के लिए आंचल का एक कोना ॥

हां मैंने देखा है पुरुष की आंखों को नम होते हुए ,  
क्योंकि जब-जब रोया है पुरुष ने ,  
तब तक मानो फटते हो बादल आसमान से ,  
जब-जब टूटा है पुरुष का हृदय तब-तब ,  
मानो टूटे हो हिमालय से बड़े-बड़े पर्वत क्षण भर में ॥

पुरुष की मैं कैसे गाथा लिखूं ,  
नदियों को भुजाओं से रोक दे ,  
जंघा में सारी धरती को गोद दे ,  
ऐसे पुरुष के पुरुषार्थ को मैं आंसुओं में कैसे डूबा देखूं ,  
मैं चाहूं कि पुरुष कभी मैं रोता ना देखूं ॥

# बेटियां

बेटियां आप उड़िए तितलियों की तरह ,  
बेटियां आप आज़ाद रहिए, सदा पंछियों तरह !!  
आसमान से भी ऊपर , अंतरिक्ष में जी भर ,  
नृत्य कीजिए , संगीत गुनगुनाइये ,  
और लिखित अनगिनत कथाएं , अपनी उड़ान की !!  
मां , गुरु , पत्नी , बेटी सभी किरदार में ,  
धरती के धर्म-कर्म में ,  
पृथ्वी के अगले जन्म में भी , आप स्त्री ही बने ,  
आपके भीतर है पुरुष को जन्म देने की क्षमता ,  
और खुद को हर परिस्थितियों में ढालने की प्रकृति !!  
अपने केशों से बांध देती है आप, संसार को एक जगह ,  
साड़ी के आंचल से ढक कर लेती हैं, आप पूरी पृथ्वी की सुरक्षा !!  
आप नदी बनिए, धरा बनिए,  
बिजली जैसे चमकते हुए, सफल परिश्रम कीजिए ,  
अपने नाचने के जमाने में ,  
कभी जीवन को खूंटे से ना बंधने दीजिए,  
क्योंकि जो एक बार जो खूंटें से बंध जाते हैं,  
बंध जाती हैं जीवन की घंटियां ,  
रह जाती है उम्र भर की कथाएं !!  
पायल चूड़ियां और हाथ में मेहंदी नहीं,  
खुले बाल रखिए , अपने सपनों को बांधने के लिए ,  
पैरों में महावर नहीं, पर पहली बारिश में ,  
मोरनी की तरह जी भर नाचने के लिए पांव सुरक्षित रखिए ,  
भले ही आंखों में काजल नहीं, पर नज़र मिलाने के लिए दृष्टि रखिए ,  
और हाथ में घड़ी, जिसका समय आपके अनुसार हो !!

# नारी शक्ति

बेटी, बहन ,दादी, मां ,मौसी ऐसे कितने ही रूप है  
तुम्हारे नारी....।  
हर रूप में हो तुम हमसब पर भारी ....।  
तुम आदि और तुम ही अंत इस संसार का।  
हर जुल्म, हर कष्ट को जड़ से उखाड़ फेके हो तुम ऐसी  
तलवार दुधारी.....।  
तुम कमजोर नहीं कमजोरी हो हमारी..।  
तुम जरूरत नहीं जिंदगी हो हमारी.. ।  
हर रूप में साथ हो तुम घर पे हमारे... ।  
संसार की गाड़ी एक कदम भी नहीं आगे बढ़ सकती  
बिना तुम्हारे...।  
देखा है मैंने तुम्हें अकेले अपने अस्तित्व को बचाने इस  
समाज से लड़ते हुए ।  
देखा है मैंने तुम्हें पति के इलाज के लिए मैराथन में  
दौड़ते हुए ।  
इतनी शक्ति तुम कहाँ से लाती हो....।  
अपने परिवार को बचाने की खातिर तुम कभी कभी  
यम से भी भीड़ जाती हो... ।  
किसी चीज की नहीं सिर्फ प्यार की भूखी हो तुम....।  
अपनों के साथ झोपड़ी में भी सुखी हो तुम....।  
छोटी-छोटी चीजों में तुम खुशियाँ ढूँढ लेती हो ।  
प्यारी सी मुस्कान से अपने घर को स्वर्ग बना देती हो ।  
तुम सागर हो प्यार का ।  
तुम उदाहरण हो सहनशक्ति का ।  
तुम चाहो तो दुनिया बना सकती हो ।  
तुम चाहो तो बिगाड़ भी सकती हो ।  
तुमसे छुपी नहीं है किसी की भावनाएं....।

## अपने सपनों को साकार करने के लिए

---

छोटे से गांव से निकल कर,  
एक बड़े सपनों की उड़ान के लिए।  
हर छोटी बड़ी परेशानियों को कुचलते हुए,  
एक लंबी आकांक्षाओं के लिए,  
निकल पड़ा हूँ मैं अपने सपनों को साकार करने के लिए।।

उम्मीदों का आसमान अपनी आंखों में लेकर,  
मेहनत, संघर्ष, कठिनाइयों के हर घाव सहने के लिए,  
चुनौतियों, गरीबी, फतिहाली, सभी को लांघते हुए।  
अपने सपनों के सूत्रों को, नया रूप देने के लिए।  
निकल पड़ा हूँ मैं अपने सपनों को साकार करने के लिए॥

बहुत सी सफलतम हस्तियों को देखकर,  
किस्से, कहानी, नाटक, और कलाकार के पदचिन्ह लिए।  
सहजता, आत्मविश्वास के साथ हर तकलीफ़ को सहते हुए,  
अपनी किस्मत को मेहनत रूपी औजार से सवारने के लिए।  
निकल पड़ा हूँ मैं अपने सपनों को साकार करने के लिए॥

**लाइव इवेंट**

**क्रिएटिविटी थिंकिंग से खुद को करें अपग्रेड, इनोवेशन वर्तमान समय की जरूरत : जगगी**

**भिलाई.** रूंगटा आर-1 इंजीनियरिंग कॉलेज में मंगलवार को मैनेजमेंट विभाग ने क्रिएटिविटी एंड इनोवेशन विषय पर कार्यशाला कराई। इस कार्यक्रम के मुख्य वक्ता पूर्व ईडी पीएंडए सेल एसपीएस जगगी थे। इस कार्यक्रम में एसपीएस के छात्रों ने सहभागिता दी, जिनको मुख्य वक्ता ने मौजूदा दौर में क्रिएटिविटी थिंकिंग से खुद को अपग्रेड रखने को कहा। उन्होंने कहा कि इनोवेशन और क्रिएटिविटी किसी भी संगठन के लिए जीवनावश्यक शक्ति की तरह हैं। ये वो चिंगारी हैं जो नई सोच को जन्म देती हैं। समस्याओं के नए समाधान ढूंढती हैं, और हमें लगातार बेहतर बनने के लिए प्रेरित करती हैं। जगगी ने उदाहरण देते हुए समझाया कि, कल्पना कीजिए, एक ऐसी दुनिया जहाँ सब कुछ हमेशा एक जैसा रहता है। कोई नई खोज नहीं, कोई नया विचार नहीं, कोई बदलाव नहीं। यह दुनिया कितनी नीरस और स्थिर होगी। यहाँ इनोवेशन और क्रिएटिविटी हमें इस स्थिरता से बाहर निकालते हैं। ये हमें नए रास्तों पर चलने, जोखिम लेने और कुछ अलग करने का साहस देते हैं। इनोवेशन पर जोर देते हुए एसपीएस ने बताया कि, इनोवेशन का मतलब है, नए उत्पादों, सेवाओं या प्रक्रियाओं को विकसित करना। यह बाजार में नए अवसरों को खोजने और उनका लाभ उठाने के बारे में है। वहीं, रचनात्मकता हमें समस्याओं को नए दृष्टिकोण से देखने और नए समाधान खोजने में मदद करती है। अंत में मुख्य वक्ता ने कहा कि, इनोवेशन और क्रिएटिविटी सिर्फ कुछ लोगों की जिम्मेदारी नहीं है।
